VALETON

- Sound based on the legendary Boss OC-2 Octave* pedal
- Compact octave pedal producing notes one octave lower and two octaves lower than the direct signal
- Carefully designed circuit for accurate octave notes
- Buffer bypass
- 100% Analog signal path
- Zinc-alloy die cast casing to withstand wear and tear
- Heavy duty metal pedal switch and on/off status LED
- Easy-to-use, readily accessible knobs onboard
- Great tone with low noise level
- Individual octaves and dry signal control knobs for creating sound variations
